

Orizas empowers freight forwarders and logistics companies to easily manage and control their entire business cycle across Land, Air and Sea Freight from quotes to delivery, while satisfying regulatory requirements worldwide.

Orizas is built within Microsoft Dynamics NAV ERP solution. The Microsoft Dynamics NAV platform provides a multi language, multi-currency ERP business solution with comprehensive global business management features for financial, procurement, warehousing, human resources and well as operations management. Orizas™ expands Microsoft Dynamics NAV to become a Freight Forwarding industry solution out of the box with all the industry workflows, models and reporting.

BENEFITS OF USING Orizas™

- ✓ Consolidation of all company information
- ✓ Industry standard freight operations
- ✓ Streamline and simplify operational processes
